- Microsoft Office - Experienced
- Window Operating System - Experienced
- Kali linux - Skillful
- Kali Linux, Nmap, Metasploit - Skillful

Mohan Yadav

I am a dedicated computer operator with extensive experience in creating various websites and learning multiple programming languages, including C, C++, Java, and C#. Over the past two years, I have honed my skills through internships, working on cybersecurity projects and developing websites. My background in both cybersecurity and web development has provided me with a robust understanding of secure and efficient software development practices.

Website Developer
Freelancing / Nepal / Present

PROJECTS

Hi, I'm Mohan Yadav, a dedicated computer operator with extensive experience in creating various websites and mastering multiple programming languages, including C, C++, Java, and C#. Over the past two years, I have honed my skills through internships focused on cybersecurity projects and web development. This unique combination of cybersecurity and web development expertise allows me to deliver secure, efficient, and high-quality software solutions.

As a freelancer, I bring a strong understanding of secure and efficient software development practices, ensuring that every project I undertake meets the highest standards. Whether you need a robust website, a custom web application, or security enhancements, I'm here to help you achieve your goals.

LANGUAGE

Nepali
